Cantù

Cantù, a lively town in the province of Como, will be the beating heart of the Gran Fondo Lombardia Felice Gimondi Würth Modyf 2025, hosting the start and finish of this prestigious cycling competition. Known for its ancient tradition of craftsmanship in the woodworking and design sectors, Cantù offers an intriguing combination of history, culture, and innovation.

Its streets, which wind through welcoming squares and historic churches, will provide the backdrop for the event, offering cyclists and spectators a unique atmosphere and unmistakable Lombard hospitality. Cantù is therefore the perfect starting point for a race that promises intense emotions and scenery of extraordinary beauty.

Madonna del Ghisallo

The **Madonna del Ghisallo**, located near Magreglio (CO), is the patron saint of cyclists. Her small church, a pilgrimage destination for enthusiasts and champions, houses historic bicycles, jerseys, and memorabilia from the greatest cyclists. The climb to Ghisallo is one of the most iconic in Italian cycling, with challenging stretches and breathtaking views of Lake Como. Since 2006, the **Cycling Museum** has been located next to the sanctuary, telling the story of this epic sport.

Muro di Sormano

The Sormano Wall is famous not only for its extreme gradient, but also for the colorful inscriptions that accompany every meter of the climb, in particular the numerous percentages indicating the difficulty of the stretch. These numbers, painted on the asphalt, indicate gradients of up to 27%, representing a real warning for cyclists and an iconic feature of the wall. Next to the percentages are messages of encouragement, names of champions, and dedications that tell the story and passion of those who take on this legendary challenge. The inscriptions with the gradients are not just technical data, but become a symbol of strength and endurance for anyone who ventures up this climb.

In the name of Gimondi

In the heart of Bergamo, at Chorus Life, there is now an eternal tribute to Felice Gimondi, a legend of Italian cycling. The statue, created by sculptor Emiliano Facchinetti, depicts a stylized bicycle with bas-reliefs recounting his achievements. A symbol of humility and greatness, it is engraved with the phrase "Noise is not good, good does not make noise," reflecting Gimondi's quiet but immense spirit. Commissioned by those who knew and loved him, the work celebrates not only the champion but also the man, leaving an indelible mark for future generations.
